

## 'Governability and Sustainability of European Small-Scale Fisheries' Discussion Forum

Monday afternoon, July 3<sup>rd</sup> 2017  
University of Amsterdam, Room TBC

### Meeting objectives and expected outcomes

The main purpose of this half-day meeting is to exchange information and knowledge about small-scale fisheries (SSF) in Europe, as well as to discuss the regional synthesis and the '**SSF Governability Index**', a new assessment tool developed by TBTI to help countries gauge what needs to happen in order to improve governance and to achieve SSF sustainability. The forum will also be an opportunity to build bridges between science, policy and community, promote discussion about the implementation of the SSF Guidelines, and develop research and capacity development program in SSF in European region.

The forum is also about networking. Thus, if you would like to make a short presentation about SSF related activities in Europe that you're involved in, please let us know and we'll put you in the program (between 3-4 pm).

The event is free but space is limited. Reservation is required at: [toobigtoignore@mun.ca](mailto:toobigtoignore@mun.ca)

Agenda	
12:00-13:00	Registration and light lunch (hosted by TBTI)
