

E-book on “Small-Scale Fisheries in Africa: A Regional Portrait”

SSF Profile Case Study Template

Background and invitation

While the importance of small-scale fisheries is widely acknowledged, information about this sector is scattered, making it difficult to design policies and management strategies that support them. The project “Too Big To Ignore” (TBTI) aims to rectify this by inviting you to contribute information about SSF through completion of the ‘SSF Profile Case Study Template’ for the e-book ‘Small-Scale Fisheries in Africa: A Regional Portrait’. Please see Call for Contributions for more information.

By completing the following questions, you are helping small-scale fisheries in Africa and around the world increase visibility and gain the recognition they deserve. These questions can be completed by individuals or a group of people knowledgeable and familiar with SSF in Africa, at any scale. Estimates based on local and expert knowledge are acceptable, but this should be indicated in the information source(s) at the end of the questionnaire.

Please complete the ‘SSF Profile Case Study Template’ and send it as an email attachment to TBTI Research Fellow Mirella Leis at mirella.deoliveiraleis@mun.ca. Once a profile is created, the information will be made publicly available through the Information System on Small-Scale Fisheries (ISSF) and you will be acknowledged as the ‘contributors(s)’ of the SSF profile as well as the ‘author(s)’ of the e-book ‘Small-Scale Fisheries in Africa: A Regional Portrait’.

We thank you for your contribution.
